

Love & Glory Learning Center Inc.

Mission and Statement

It's our mission to create a loving and caring environment in order to help the children in our care develop physically, socially, intellectual and emotionally and to discover the pure joy of learning that will last a lifetime. We are committed to enabling each child to develop a positive self-concept in order to be successful in their future and education.

HISTORY OF THE CENTER

This center began as a home day care when the need and demand for child care out grew the capacity of the owner's home, the business was changed to a child care center, which was purchased in 2003. That center was sold in 2006, and the present Love & Glory Learning Center, Inc site was purchased. This is where we have been serving neighborhood families ever since.

Philosophy

Here at Love & Glory Learning Center, we believe that a child is an individual and each one will develop at his or her own rate. We believe that a loving and caring environment is crucial in developing the child's physical, social, intellectual, emotional and language development.

Goals

Love & Glory Learning Center offers a first-class nurturing and learning environment that prepares its students to excel as young learners. We are dedicated to the well being and educational success of every child. We are a quality learning center just for kids from the ages of 6 weeks to 12 years of age.
